

"DECLARATION OF THE SOMALIA LABOUR PARTY ESTABLISHMENT."

IN THE NAME OF ALLAH, MOST BENEVOLENT, EVER-MERCIFUL

"May Peace and Mercy be upon our Profet and messenger Mohammed and his Companions and followers in the Religion."

"May Peace and Mercy be upon our Prophet and messenger Mohammed and his Companions and followers in the Religion."

Ladies and Gentlemen:

My fellow Somali Brothers and Sisters Assalamu Aleykum Wa Rahmatullahi Wa Barakaatuhu!

Today November 11th, 2011, at 11:00 PM ET, I am so grateful and thankful to Allah our creator and sustainer the most grateful and ever-merciful for giving me this honor and opportunity to declare and announce publicly the official foundation and establishment of **The Somali Labour Party**, which will participate and compete in the future political campaign in Somalia Allah will. We all know that our Country and our people have suffered enough and are still suffering because of irresponsible and inhumane actions of our fellow citizens whatsoever was their intention the damage is done, and still is continuing and inflicting unacceptable consequences of mass starvation to extinction due to war and famine, which are beyond the acceptable level of understanding to all mankind in our World.

Most of the catastrophe in our Country are man made except two or three natural disasters caused by drought that have and are still causing mass starvation and death because of hunger, thirst, malnutrition, and lack of security that our country and its population are desperately in need with strong urgency to safeguard and protect the few surviving of them God will.

The Somali population have lost almost everything from loved ones like mothers, fathers, sons, brothers, sisters, grandfathers and grandmothers, uncles, aunts, property such as houses, farms, wealth, and most importantly they lost their government, country, sovereignty, their reputation and honor, which is sad to say there is nothing left for them except hope and faith in Allah that commanded us as believers not to loose hope from his bounties, mercifulness, and that is why me and my fellow brothers and co-founders have firmly decided to go ahead with

the establishment of the Somali Labour Party to rescue our brothers and sisters as well as our fellow citizens in Somalia.

After two decades of destruction and devastations, its time for us to stand up together and participate in all political elections in the future Insha Allah, and not to waste any single minute in order to be ready and build up popular confidence and their will to vote and be elected democratically under the Leadership of **The Somali Labour Party**, which is the only party that can unite all Somalis under one political Umbrella' Having said that, I must remind you and myself that Somalia needs the following actions in order to find an exit strategy from the current catastrophic situation:

- 1) I urge all Somalis and myself to Fear Allah SWT.
- 2) We must do what Allah commanded us to do, and must abstain from what is forbidden by Allah.
- 3) We must respect each other, love each other, help each other, share and care for our less fortunate.
- 4) We must do and guarantee Justice for All because it was injustice that caused the collapse of our system.
- 5) We must promote and work hard for Peace among us, our neighboring countries as well as the Peace in our World.

By doing and fulfilling honestly the above mentioned activities I am very confident that together we shall succeed Insha Allah, and with The International Community we shall play active role in our World, and with the help of Allah mankind shall enjoy peace and prosperity with honor and dignity for all human being without discrimination in color, faith, culture and tradition, we shall all live in peace and harmony side by side without fear, contributing into progress and economic prosperity through Labour and professionally honest work God will.

Once again let us pray Allah SWT to help us reconcile among ourselves, forgive us for what we have committed as sin against ourselves, against our country, our wildlife, our neighbors, and thank Allah SWT for enlightening to us the right path on which we hope to find the real and lasting solution for Somalia through our Somalia Labour Party Insha Allah.

May Allah bless the Somali Labour Party, May Allah bless Somalia and the Somali people, May Allah bless us all.

Thank you, all.

Dr Ali Mohamed Apollo

Founder of the **Somali Labour Party**.
